

TNR Protocols For Individuals

We are excited to offer TNR services to our local and surrounding communities. It is the primary goal of the team at Community Cat Clinic to ensure that there is a clear and smooth process for you to have. It will be vital for our TNR teams to follow this process to ensure there is no delay in the process upon arrival and dismissal.

Our TNR price is \$65/cat and this price includes the following:

- Spay/Neuter
- Rabies
- FVRCP
- Ivermectin injection
- Praziquantel Injection (***to be determined by doctor if needed***)
- Onsior injection (24 hour pain relief)
- Testicular nerve block
- Subcutaneous Fluids
- Ear tipping and tattoo

Our TNR days are Wednesdays and Thursdays. If you plan to bring any on those days we ask that you call us to let us know how many slots you would like us to reserve for you based on what you are expecting to trap. If you trap less than this that is fine you can bring what you have. You may drop off from noon until 6:00pm the day before your TNR appointments, or between 8 and 9 the morning of the appointment. **IMPORTANT:** Please DO NOT remove your cat from your vehicle until a team member is present and ready to receive the cat. **Addition:** *For the safety and security of these cats please ensure that ALL traps have either zip ties or carabiners that secure the trap doors. We will not be responsible for cats that get loose due to unsecured traps. (October 2023)*

Please understand that there is a streamline process to our TNR which means in order for this process to work we must focus our time on the cats and their procedure. Our TNR team can not be focused on sending medical records, uploading medical records or dedicating much time outside of patient care. If they are not in a trap like the one pictured above, or if you bring any records that you want us to create individual profiles on these cats, along with uploading medical history then they will be considered pet, rescue or foster cats and will be billed as such. We cannot allow for these cats to go in with our TNR process.

For scheduling you can call/text 678-653-8913 or email clientinfo@communitycatclinic.com

Thank you for all you do for our communities!
